ASHCROFT MUNICIPAL CEMETERY ASHCROFT, BC

The property was originally privately owned by 3 different men. As each man died his records to burials were passed on to the surviving owners. I have been told that the family of the last (deceased) owner discarded the records. The municipal hall has provided me with a map showing far more names than there are markers but some of these have been written in later using descendant's memories and could be errors. There are very few markers at the south end which appears to contain the earliest graves. There is also a section at the southeast area where I have marked a "C" that is for cremated remains. I don't recall any marker for this section. I have not had an opportunity to copy the map as it will have to be done in sections as it is 33 inches by 55 inches.

Recorded by Virginia Bell, 1985
