eunice@genbug.ca

January 25, 2019

**BRITISH COLUMBIA GENEALOGICAL SOCIETY
IRISH INTEREST GROUP
INDEX OF VERTICAL FOLDER LIBRARY**

TYPES OF INFORMATION CONTAINED

Anything of interest and Irish is added to the collection. There may be photocopies of parish records, maps, copies of Griffith's Valuation, census, tombstone records, lists of Irish books, and how-to articles. ***New additions are welcomed and appreciated.***

THE INDEX

The Index is arranged numerically, however, within the first 47 folders, alphabetically by County. As new folders are required, these are added to the end of the list.

The next part is the indexing of the items held in the individual folders. As new information is added to a folder, it is also added to the folder index sheet. If there is too much for one folder, then there will be a second folder.

At the top of this folder index sheet is the County and the folder number for easy location of the folder in the file boxes.

Some of the entries may have Dewey Decimal numbers next to them. This will indicate information was found in the Family History Library in Salt Lake City or any other library using the Dewey Decimal system. If the item was located under a Library of Congress number, that will be given as well.

Next to each entry is a two-letter code. This indicates what kind of information the record is:

PR	Parish Register	PU	Publication or Journal
BO	Book	MA	Map
AR	Article	GR	Griffith's Valuation
EI	Emigration List	CE	Census
MI	Microform (fiche or film)	MI	Monumental Inscriptions
NE	Newspaper	EX	Extract from Source/Portion of Whole
LS	Lists	MA	Magazines
IN	Information Sheet/Advertising	LT	Letter/Correspondence
BR	Brochure	PH	Photographs/Postcards

The third column contains a brief description of the indexed items.

The Vertical Folder Library is for members of the British Columbia Genealogical Society who have Irish roots. The purpose is to gather as much information as possible on a specific Irish county, Irish topic or Irish records collection gathered into a folder and indexed.

Researchers may write to the Coordinator at the Society's address, or email to eunice@genbug.ca – a copy will be scanned and emailed to you.

The Index is located on the BCGS website for reference. The collection is located in the Library. This Index has been compiled using Microsoft Word for Windows 2010.
